

Video-1

1) basic knowledge of react

React

a) React dom b) react-native

2) create app

a) create react app

b) vite

Among vite is easily install

1)

Use react and javascript

npm Install

and

npm run dev

finally create first app

then,

changing in this

use App.jsx

print hello world

create button

Video-2

Compare create react app and vite method
